PRE-RIG TRUSS

Neo Pod

CE

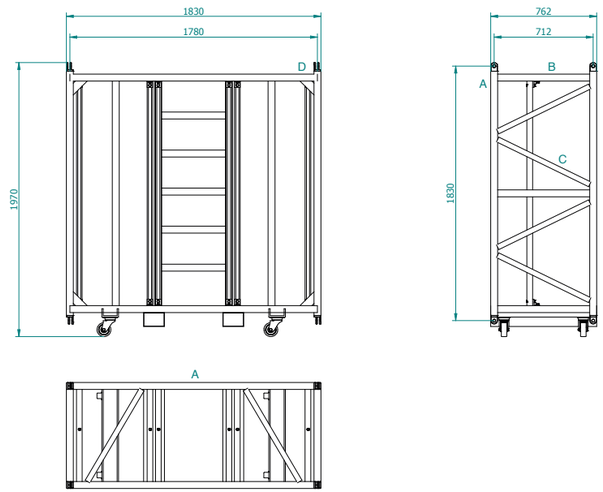

The Lighting Pod for your light walls

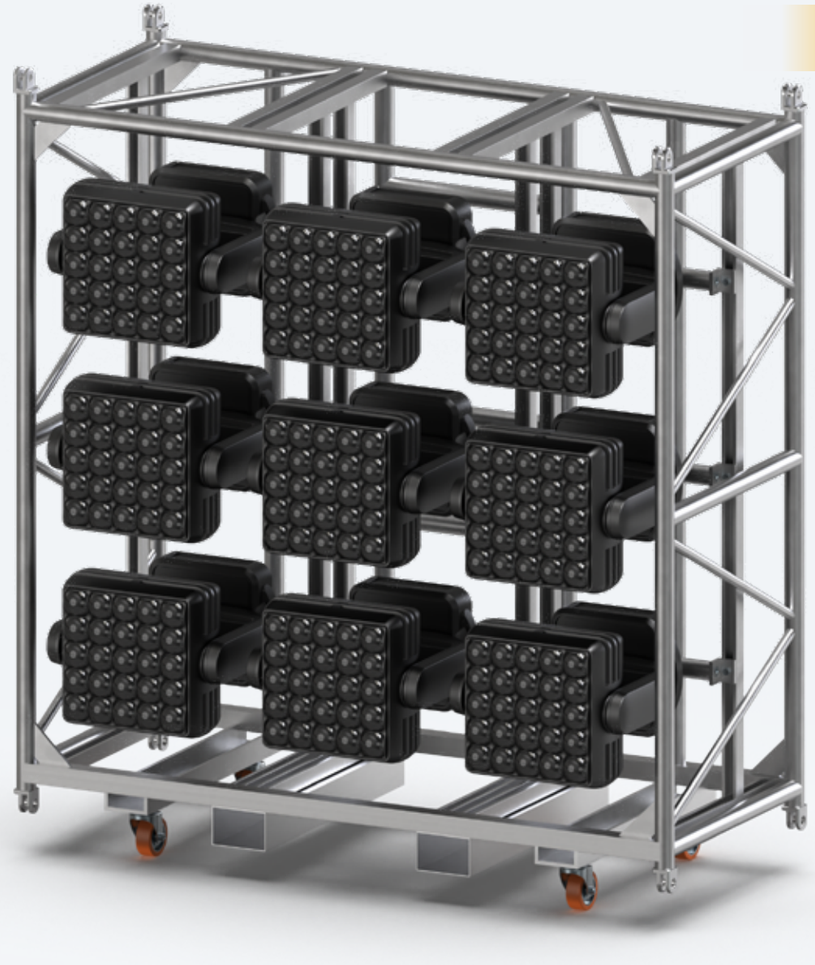

Keeping the spotlights and moving heads always ready for use yet safely protected within a robust aluminium frame.

Easy to store and transport, they are ready for any application.

The support arms for the lights can be easily attached, in the number and position required by your lighting setup.

The support arm for lights slides smoothly within the tracks and can be locked in any position, both **along the vertical tracks and within the tracks on the base and beneath the top**.

The fine spring-pressure adjustment also allows the lights **to be positioned further forward**, ensuring precise and flexible placement.
